PASSION MEETS PROFESSION

COMMEND ACADEMY

Technical Education at the highest level

The Commend Academy provides customers with up to date and concise technical training on all of the Commend Intercom Server range. In a wide range of interactive, practice-oriented workshops and personal consultations, a team of well-trained professionals provide their extensive knowledge in the various aspects of the business. The catalogue of opportunities to improve one's knowledge ranges from basic trainings on specific products, technologies and solutions to workshops for advanced users and expert seminars on a broad range of topics.

TRAININGS

Commend Academy will help you grow your knowledge systematically with Certified Trainings for increasing skill levels. Don't miss this chance to confirm your professional competence while learning to solve increasingly complex tasks. Our certificates are valid for two years. Note that attending an Advanced Course requires a valid certificate for the basic training.
