

G8-IF | G3-IF

IP/RS-232 interface cards

G8-IF (Rev. AB)

G3-IF (Rev. AB)

G8A-V24

Fully
IP-based

RS-232

Easy
integration

Intercom
integration

Versatile connectivity

Using the IP interface cards G8-IF and G3-IF, external systems (e.g. access control, video and radio system) can be connected to the Intercom Servers GE 800 and GE 300 via an IP network or RS-232 according to the Command standard protocol.

Features and highlights

- **G8-IF (Rev. AB)**
IP interface card with up to four connections for the output of ICX protocol via IP networks and two 9-pin D-Submini RS-232 connectors.
- **L8-IF-ICX**
Licence upgrade for one ICX connection (up to six possible). Can be used for IP network or RS-232.
- **G8A-V24**
Installation board for interface card G8-IF with two 9-pin D-Sub RS-232 jacks (included in extent of supply of G8-IF).
- **G3-IF (Rev. AB)**
IP interface card with up to four connections for the output of the ICX protocol via IP networks and two 9-pin D-Submini RS-232 connectors.
- **L3-IF-ICX**
Licence upgrade for one ICX connection (up to six possible). Can be used for IP network or RS-232.

G8-IF | G3-IF

Technical specifications

Technical data

| | |
|-------------------------------------|---|
| Operating temperature range: | -0 °C to +50 °C (32 °F to +122 °F) |
| Storage temperature range: | -30 °C to +60 °C (-22 °F to +140 °F) |
| Relative humidity: | 20% to 80% |
| Power supply: | from Intercom Server |
| Emergency power consumption: | 50 mAh |
| IP protocols: | TCP/IP |
| RS-232 protocols: | PC02 protocol, other protocols can be loaded via the Intercom Server |
| Dimensions: | G8-IF: 100 x 167 mm (3.94 x 6.58 in) G3-IF: 60 x 160 mm (2.36 x 6.30 in) |
| Weight incl. packaging: | G8-IF: 250 g (0.55 lbs) G3-IF: 150 g (0.33 lbs) |

Extent of supply

G8-IF

- Interface card G8-IF
- Installation board G8A-V24
- Short reference

G3-IF

- Ethernet interface card G8-IF
- Short reference

Revisions

G8-IF (Rev. AB)

G8-IF (Rev. AA)

Benefits

- IP and RS-232 interface card
- Suitable for Intercom Servers GE 800 and GE 300
- For integration of video switchers, radio systems, etc.
- Interface cards with standard protocol for connection of third-party systems, e.g. video switchers or host computers
- Equipped with two RS-232 jacks

System requirements

GE 800

- Recommended Intercom Server software: PRO 800 version 6.4
- Recommended configuration software: CCT 800 version 13.1

GE 300

- Recommended Intercom Server software: PRO 800 version 6.4
- Recommended configuration software: CCT 800 version 13.1

Gx-IF (Rev. AB)

- Recommended firmware: version 3.2 build 4

G3-IF (Rev. AB)

G3-IF (Rev. AA)

G8-IF | G3-IF

Installation instructions

Safety instructions

- ESD precautions must be observed.
- Cards may be exchanged only with voltage switched off.
- Mounting and installation of the Intercom Servers and of the accessoires may be carried out by authorised service personnel only.

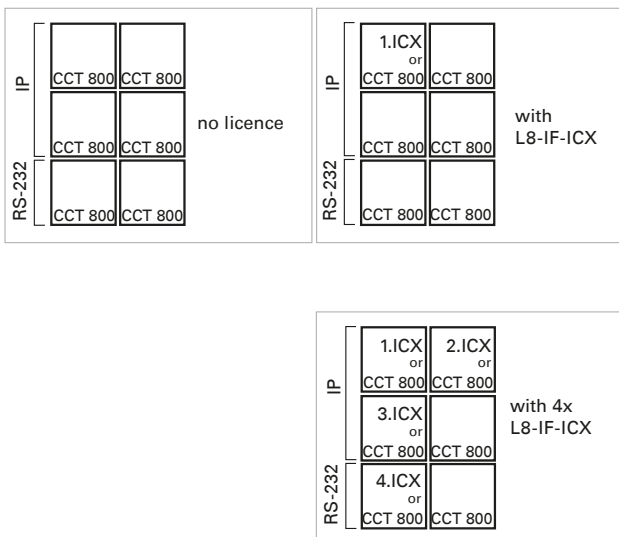

Connection G8A-NET

- The card G8-IF does not require an installation board for IP connections. Communication is carried out via the Ethernet ports of the installation board G8A-NET of the G8-NET card.
- For connection of the RS-232 interface, the installation board G8A-V24 must be used.

Licences G8-IF

- The G8-IF card has up to four virtual TCP/IP interfaces and two RS-232 interfaces, which can be licenced as described below.
- Without a L8-IF-ICX licence, the G8-IF card can only be used for CCT 800 and ComLOG configuration.
- The L8-IF-ICX licence can be activated on any connection.

Example of licencing

Installation instructions

G8-IF

- In an Intercom Server GE 800, the card can be installed in the slots 1–14 (a maximum of 14 interface cards per housing).

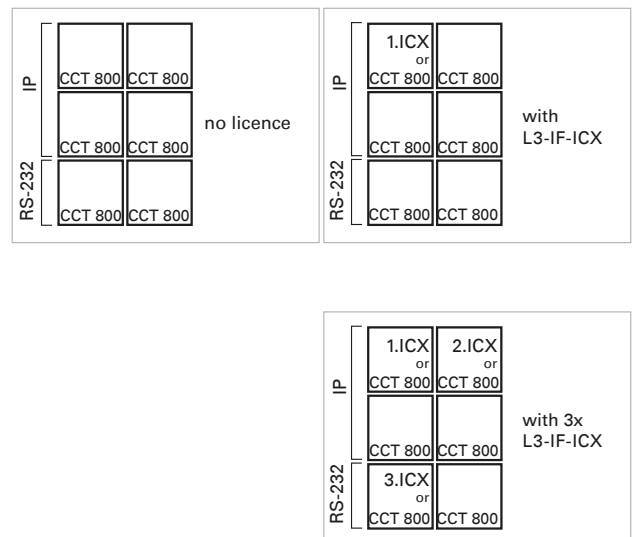

G3-IF

- In an Intercom Server GE 300, the card can be installed in the slots 1–10 (interface housing GEZ 300 required, a maximum of 10 cards).
- When using a standard RS-232 plug, it is recommended to install the card in slot 1 or 6 (due to lack of space).

Licences G3-IF

- The G3-IF card has up to four virtual TCP/IP interfaces and two RS-232 interfaces, which can be licenced as described below.
- Without a L3-IF-ICX licence, the G3-IF card can only be used for CCT 800 and ComLOG configuration.
- The L3-IF-ICX licence can be activated on any connection.

Example of licencing

Quality tested. Reliable. Smart.

COMMEND products are developed and manufactured by Commend International in Salzburg, Austria.
